

2022 GENESIS G90

GENESIS

THIS IS WHERE OUR STORY BEGAN. AND THERE'S NO END IN SIGHT.

At Genesis, we see things with a sense of boundless possibilities. Just a few years ago, we wondered what it would take to create a new luxury car – and a new luxury car company – that were not tied to the past, but focused on the future.

That car was the Genesis G90, and it began a story that's quickly unfolded.

By fusing advanced technologies with smart design, the G90 created world-class levels of performance, safety and comfort. And led us to invent a design language of our very own. Our inspiration? The Genesis emblem, where boldness takes flight.

In the G90, we've elevated the luxury experience at every level – with an unflinching focus on quality, reliability and dependability. It's focus not confined to engineering and craftsmanship – every owner enjoys the privileges of the Genesis Experience, a suite of innovative owner benefits designed around how you actually live.

In the future, not the past.

THE 2022 GENESIS G90.

You are looking at the leading edge of design and performance. But it's not the face of some far-off future. It is here, right now, in the 2022 G90. And its innovations will profoundly change your expectations of the luxury automotive experience.

MODERN SCULPTURE FORGED FROM STEEL, GLASS AND IMAGINATION.

Genesis Design has become one of the global leaders in shaping a future where luxury, technology and design intersect. Just look at the G90: Confident and magnetic, it projects a powerful presence through its Athletic Elegance design aesthetic.

Its face is unmistakably bold. The G90's front styling greets you with the penetrating gaze of distinctive Quad LED Headlights. The diamond-shaped pattern of its G-Matrix Grille is accentuated by intersections that sparkle like jewelry.

That same effect is echoed in its taillights – a refrain of the Quad LED Lamp design theme – and continues inside the G90's impeccably crafted cabin. You'll see it most notably in the stitching of its supple Nappa leather seats.

As the flagship sedan of Genesis, the G90 embodies substance as well as style. Advanced features like Dynamic Voice Recognition and Personalized Remote Start¹ may have you wondering whether Genesis is a car company...or a tech company?

CARVE YOUR OWN PATH.

As Genesis has shown with the G90, you don't need to wait for the future to arrive. You can shape it into something that expresses the world on *your* terms.

EXPERIENCE PERFORMANCE ON A HIGHER LEVEL.

In the Genesis G90, power takes many forms. What's your preference – the 3.3T Premium model, with its responsive, fuel-efficient 365-hp Twin-Turbo V6? Or the 5.0 Ultimate, which uses a high-performance 420-hp V8 to own the road? Either way, power transfers to the pavement through an 8-speed automatic transmission.

Of course, luxury sedan performance is not only about quantity – it's defined by the quality of the experience. Which is why the Genesis G90 features Intelligent Drive Mode with Smart Shift. Select your preferred driving dynamic: Comfort, Sport, Eco or Custom. Each mode adapts the car's transmission mapping and throttle responsiveness, steering, suspension and available All Wheel Drive in real time to create a precisely personal driving experience. The Custom mode even includes a Rear Comfort setting that helps rear passengers feel more relaxed, especially during acceleration.

The G90's available All Wheel Drive delivers a rear-wheel-drive bias when road conditions are good. When conditions become slippery, it instantly transfers power to the wheels needing traction.

As you are driving, data sensors linked to the G90's standard Genesis Adaptive Control Suspension are also reacting to the road surface, signaling your car's Continuous Damping Control to micro-adjust the shocks and preserve a smooth ride.

3.3L TWIN-TURBO V6²

365 HP	376 LB-FT	8-SPEED
Maximum Output	1,300 - 4,500 RPM	Electronic Automatic

5.0L V8²

420 HP	383 LB-FT	8-SPEED
Maximum Output	5,000 RPM	Electronic Automatic

HONORS LIKE THIS HAVE TO BE EARNED.

To be named a 2021 IIHS TOP SAFETY PICK+ is the kind of industry accolade that only comes the hard way, through rigorous engineering.³ In the G90's case, it starts with an ultra-rigid body structure. Formed using advanced high-strength steel, aerospace adhesives and laser-brazed roof welding, it's designed to help preserve the integrity of the passenger cabin in a collision.

The stiff unibody structure is also the ideal platform for the G90's advanced suspension system. The chassis is purposefully designed to bring you both of the prized characteristics of a luxury sedan.

The first, of course, is a ride that can soak up the roughest of roads while remaining smooth and composed. The second is handling that's so responsive, it provides not only pure driving pleasure, but also the quick reflexes needed to help you steer clear of trouble. That feeling of security is the ultimate reward of engineering like this.

2021 Genesis G90

SAFETY FROM ALL ANGLES.

As a driver, you try to anticipate what could happen all around you. In the G90, your alertness is elevated by an array of advanced sensors, cameras and radar technologies. If the potential for a collision is detected ahead, your G90 warns you and assists with braking or steering to help avoid an accident. If a vehicle is detected in your blind spot when changing lanes, your G90 helps nudge you safely back into your lane. And if something unseen is detected while you're backing out of a parking space, your G90 is quick to warn you. If necessary, it applies braking for you, too.⁴

01 FORWARD THINKING, FAST REACTING

Your G90 helps warn of pedestrians, cyclists and slowed or stopped vehicles ahead by alerting you to the potential for a collision. If necessary, braking is automatically applied. If an oncoming vehicle from the opposing lane is detected in your path, the G90 alerts its driver and assists with steering if a collision is determined to be imminent.⁵

02 EYES WIDE OPEN

A Blind-Spot View Monitor provides the G90 driver with live video from either side of the car. Ready to change lanes? Activate your turn signal, and a rear view of the adjacent lane is projected on the center instrument cluster, revealing blind spots not typically seen by traditional side mirrors.⁶

03 REAR GUARD

Backing out of a parking space and wondering whether there's cross traffic coming your way? Rear Cross-Traffic Collision-Avoidance Assist helps warn you of another vehicle approaching from the side while you're exiting a parking space in reverse gear. If necessary, the G90 applies braking automatically to help prevent a collision.⁷

IT KEEPS YOU CENTERED.

Driving can be a lot like life itself: While you're trying to stay centered, things keep coming at you that make it a challenge. That's why the G90 comes with innovative technologies like Highway Driving Assist.⁸ On federal interstate highways, it monitors the position of your vehicle within its lane and uses subtle steering corrections to help keep your G90 driving down the center. It also works with the G90's Smart Cruise Control to maintain a safe distance from vehicles in front of you.⁹ A new Auto Set feature can adjust your cruising speed for changing speed limits, while Highway Auto Curve Zone Slowdown technology reduces your cruising speed when it detects a curve in the road ahead.

01 LANE FOLLOWING ASSIST

To help G90 drivers stay centered in their lane, Lane Following Assist technology identifies and tracks lane markings. If the markings aren't clear, the system can also create a virtual path based on movements of the vehicle traveling ahead.¹⁰

02 BLIND-SPOT COLLISION-AVOIDANCE ASSIST

Serving as an extra set of eyes when changing lanes, Blind-Spot Collision-Avoidance Assist continuously monitors your flanks. If a vehicle is detected in your blind spot while you attempt a lane change, it automatically applies left or right front braking to help nudge you safely back into your lane.¹¹

03 SURROUND VIEW MONITOR

To aid you when you are parallel parking, four cameras and zoom in/out functionality on the G90's Surround View Monitor offer expanded views of your perimeter.¹² A front-facing camera assists with tight alleys and parking areas with poor visibility, while a Rearview Camera with Dynamic Guidelines helps track your steering path in reverse.

04 HIGH BEAM ASSIST

The G90's Quad LED Headlights are equipped with High Beam Assist, which automatically switches your headlights from high to low beams when the car's front camera detects oncoming or leading vehicles on the road ahead. It's one less demand on the driver's attention, and one more reason the G90 is so rewarding to drive.

05 DRIVER ATTENTION WARNING & SAFE EXIT ASSIST

As you drive, patterns such as steering frequency and unnatural deceleration or changes in lane position are monitored. If potential driver fatigue is detected, visual and audio alerts suggest you take a break.¹³ After parking, Safe Exit Assist issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.¹⁴

ENJOY THE VIEW.

Sit back in the reclining rear seat of your G90, and let this be your sanctuary from the world. Or bring the world along for the ride via your individual HD entertainment system display.

BE THE RULER OF YOUR OWN REALM.

When the press of a button on the handle unlocks the door of your G90, you enter an interior illuminated by your choice of ambient lighting colors. It's crafted from authentic materials like natural, open-pore ash and walnut burl wood trims with a soft matte finish.

Nappa leather covers the G90's seating surfaces. And that signature G-Matrix pattern? It's quilted into the seat cushions and seatbacks offered in your choice of five color combinations. The grilles for the Lexicon® Premium Audio System door speakers are stainless steel. And many of the switches on the instrument panel are chrome-plated.

Thanks to a combination of sound-insulating acoustic glass, triple-sealed doors and other measures, the G90 cabin is profoundly quiet. It's also refreshingly clean – air quality is monitored by a segment-first CO₂ Sensor.¹⁵ If elevated levels of carbon dioxide are detected, the ventilation system automatically refreshes the cabin air to help reduce driver fatigue.

YOUR SEAT OF POWER.

From the moment you slip behind the steering wheel, the G90's driver seat communicates the car's premium qualities with conviction. Pull the driver's door closed, and you sense in an instant how special your G90 is. The door features power closure, gently shutting itself with a sound that lets you know you're ready to relax.

Every G90 comes standard with a 22-way Power Driver Seat that's so supportive, it earned certification from Aktion Gesunder Rücken (AGR), renowned for rating products based on overall back comfort, health and safety. Smart Posture Care technology elevates your relaxation by setting the most ergonomic seating position based on an analysis of the driver's physical profile data. Its also adjusts the steering wheel, outside mirror and Heads-up Display automatically.

THE G90'S BACK SEATS DON'T TAKE A BACKSEAT TO ANYONE.

In the G90 5.0 Ultimate, the rear cabin features a 12-way Left Rear Power Seat, and an AGR-certified 14-way Right Rear Power Seat. The right rear seat includes a One-Touch Relax Mode that reclines to your preferred seating position.

Center console controls let both backseat passengers customize their sanctuary. Recline the seat back, adjust the lumbar support, set the headrest height or angle, and more. An Integrated Memory System recalls two position settings at the touch of a button.

Settle into either rear seat of the G90 5.0 Ultimate, and you're welcomed by dual 10.3" high-definition video monitors that tilt and adjust to optimize individual viewing. Rear-seat passengers can also control their comfort using the G90's three-zone climate control system. Turn on the soothing heat, press the power recline switch, raise the power rear window and rear side-window sunshades – and your tranquility is complete.

A HIGHER FORM OF INTELLIGENCE.

The Genesis G90 is filled with features that know what you need. The software that's behind many of its systems, including the navigation, is updated automatically over the air.¹⁶ A Heads-up Display projects vehicle speed, speed limits, navigation turns and safety system alerts onto the windshield in fighter-jet fashion. Seat heating and cooling adjusts automatically to compensate for things like sunlight intensity

that affect interior temperatures. Android Auto™ and Apple CarPlay® make it easy to sync your smartphone's key features onto the large infotainment display.¹⁷ Set your compatible smartphone on the center console, and it charges automatically.¹⁸ Stand behind the trunk of your G90, and within a few seconds, it recognizes your key fob and pops open automatically.¹⁹ Simple was never so smart.

HOW DOES THIS SOUND?

With 17 speakers and a high-performance 12-channel amplifier, the G90's Lexicon® Premium Audio System is an immersive listening experience that makes the boundaries of your vehicle seemingly disappear. QuantumLogic® Surround technology identifies and re-authors individual voices and instruments into a precise multi-channel soundstage, resulting in wider, more vibrant sound.

Dynamic Voice Recognition lets you activate climate controls, select SiriusXM channels,²⁰ open the trunk, close windows and more using natural, conversational voice commands. You can ask your G90 questions like 'How is Amazon's stock doing today?' or 'What is the chance of rain in Manhattan?' – and quickly hear a response.²¹

NAVIGATION WITH IMAGINATION.

Up on the large 12.3" infotainment screen, the G90's navigation system uses Connected Routing for fast cloud-based routing with the latest traffic and road conditions.²² Using Genesis Connected Services, you can also tap your smartphone to find destinations or points of interest that can be sent directly to your G90's navigation before you enter the car.²³

Once you're inside, the split-screen display and junction view lane guidance help keep you on track. It's a touchscreen, so you can pinch/pull to zoom in and out of maps using your fingertips. And with just a few spoken words, you can command the navigation system to find addresses and maps, thanks to Dynamic Voice Recognition.

The convenience – and innovation – doesn't end there. Your G90's Highway Driving Assist feature also includes Auto Set, which is activated when you set your cruise control speed to match the current speed limit. As you enter areas where the posted speed limit changes, your G90 automatically adjusts its cruise control settings to match.²⁴ Imagine that.

GENESIS CONNECTED SERVICES

With the Genesis Intelligent Assistant app's Personalized Remote Start feature, you can remotely start your car's engine and climate controls, recall a setting for the Integrated Memory Seat, warm up the heated seats and activate the front defroster – all with a single touch of your mobile device or a voice command to your Amazon Echo® or Google Home™ device.²⁵ Wondering if you left your G90's doors unlocked or a window open? Check your smartphone app. The app also lets you check your

vehicle's fuel level and includes a valet alert to help you keep tabs on your G90. Sync the app with your calendar of events, and it can send timely updates and recommendations to your phone in preparation for upcoming drives. These are just some of the ways Genesis Connected Services (complimentary for your first three years of ownership) act as your conduit to the information, assistance and services you want and need on the go. Visit genesis.com for details.²⁶

REMOTE VEHICLE PERSONALIZATION.

As a state-of-the-art luxury sedan, your G90 gets to know your personal needs. Then it works quietly behind the scenes to help manage those preferences for you. With Genesis Connected Services, you can customize profile settings for both you and a second driver. What drive mode do you want by default? What temperature settings do you want when you remotely start the climate controls? What Integrated Memory System settings do you want by default for the driver seat and steering wheel positions? These are just some of the effort-saving gestures the G90 can make on your behalf.

GENESIS EXPERIENCE

Our thoughtfully crafted suite of owner benefits is designed to enhance not just the way you drive, but the way you live. It reflects our profound commitment to meeting your needs and wants precisely. And while we can't make more of it, the time-saving features of the Genesis Experience will help you spend your time where it matters most.

TRUE LUXURY ENHANCES YOUR ENTIRE EXPERIENCE. BOTH ON AND OFF THE ROAD.

COMPLIMENTARY SERVICE VALET

You may never need to bring your vehicle to a Genesis service center. Allow your Genesis retailer to pick up your G90 and deliver a courtesy replacement vehicle, perform any required maintenance, then return your car to your location...all while you enjoy more pleasurable pursuits. Complimentary for 3 years or 36,000 miles.

COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, whichever comes first. Includes oil changes and tire rotations, as well as select wear items like wiper blades, brake pads and alignments as needed.

24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, five-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer. Reimbursement for an overnight stay is included if needed.

GENESIS CONNECTED SERVICES

Every new G90 includes three years of complimentary Genesis Connected Services. It's an exclusive suite of safety, car care, guidance and remote features that help keep you connected to your digital life and the things you need on the go.

SIRIUSXM ALL ACCESS SATELLITE RADIO

Complimentary for your first three months, SiriusXM All Access offers one of the widest varieties of entertainment anytime, anywhere. Enjoy every channel available on your satellite radio – including personalized stations powered by Pandora® – and listen in your G90 or on your computer, smartphone or tablet with the SiriusXM app.

NAVIGATION AND MULTIMEDIA UPDATES

To ensure you're accessing up-to-date driving directions, your G90 navigation system comes with annual map updates – complimentary for three years during routine maintenance visits with Genesis. Over the Air Updates are available through Genesis Connected Services.¹⁶

FOOTNOTES

¹Requires an active Genesis Connected Services subscription with Remote package. ²Horsepower and torque ratings with premium fuel. ³To qualify for *2021 TOP SAFETY PICK+*, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. For details visit www.iihs.org. ⁴Parking Collision-Avoidance Assist – Rear (PCA-R) can alert the driver of a potential hazard by providing an audible warning and, if deemed necessary, applying light braking. PCA-R is active when the vehicle is in reverse gear and operating at low speeds. Never rely exclusively on PCA-R when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. PCA-R may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. See Owner's Manual for details and limitations. ⁵Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians and cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. Lane-Change Oncoming helps the driver avoid collisions involving drifting into an oncoming traffic lane by applying the opposing front brake only when the lane markings are clearly visible on the road. There are limitations to the function, detection, range and clarity of the system. Lane-Change Oncoming may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for details and limitations. ⁶The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and sounding an audible alert if another vehicle is detected. The turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. ⁷Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and helps apply braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ⁸Highway Driving Assist (HDA), when used in conjunction with Lane Following Assist and Smart Cruise Control, is for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from other vehicles ahead when the lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. The driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details and limitations. ⁹Smart Cruise Control (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible for slowing or stopping the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops, and reengages if the vehicle ahead moves forward within three seconds. See Owner's Manual for details and limitations. ¹⁰Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, can help keep the vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ¹¹Blind-Spot Collision-Avoidance Assist (BCA) warns the driver of other cars in the blind spot region. If BCA detects an unsafe lane change being attempted, it applies braking on the opposite side of the attempted lane change to help avoid a collision. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot and may not operate if sensors are obscured in any way. Do not rely exclusively on BCA. BCA is a supplemental system, and it is the driver's responsibility to exercise caution when changing lanes. Refer to your Owner's Manual for details and limitations. ¹²The Surround

View Camera System (SVCS) is a parking support system. SVCS cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations. ¹³Driver Attention Warning (DAW) is only a warning to inform the driver of a potential lack of attention or drowsiness. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. ¹⁴When your vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit if a vehicle is detected to be approaching from behind. When Child Locks are active, SEA helps prevent the rear doors from opening if a vehicle approaching from behind is detected. SEA is not a substitute for attentive driving. See Owner's Manual for details and limitations. ¹⁵Claim based on comparison of specifications on manufacturer websites. ¹⁶Over the Air updates require a Genesis Connected Services Guidance package subscription. ¹⁷Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. ¹⁸Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. ¹⁹The smart trunk will open when your Proximity Key is within 40 inches of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for details and limitations. Always close your trunk before operating your vehicle. ²⁰All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. ²¹An active Genesis Connected Services (GCS) subscription is required for the web search function to operate. Vehicle commands do not require a GCS subscription. ²²Connected Routing helps drivers access the latest traffic and road conditions. It requires an active Genesis Connected Services subscription with Guidance package and a wireless connection. See Owner's Manual for details and limitations. ²³Requires active Genesis Connected Services subscription with Guidance package. ²⁴Auto Set is activated when the driver sets Highway Driving Assist to a speed matching the current road's speed limit. When an area with a different posted speed limit is entered, the vehicle's speed will automatically adjust provided the posted speed limit is available in the G90's navigation system data. See Owner's Manual for details and limitations. ²⁵Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected Services. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. ²⁶Genesis Connected Services is complimentary for 3 years and requires an active subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use and is available for new 2022 model year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit genesis.com or an authorized retailer of Genesis branded products. ²⁷EPA estimates for comparison only. Your actual mileage will vary with options, driving conditions, driving habits and vehicle condition.
